About AzCHER

The Arizona Coalition for Healthcare Emergency Response, or AzCHER, unifies the state's healthcare delivery system, including hospitals, long-term care, hospice, home health, and first responders like EMS, with public health and emergency management. The coalition's purpose is to build resilience such that the healthcare delivery system is prepared for and capable of responding to large-scale emergencies. Such emergencies can be natural (e.g., wildfires and pandemics) or man-made (e.g., active shooters, mass casualty incidents, and cyber-attacks). AzCHER is the state's only healthcare coalition, serving all 15 counties and 22 tribal communities. Membership exceeds 600 organizations, all of which have a vested interest in Arizona's healthcare emergency management infrastructure. Visit us at <https://azcher.org>.
